~~~~~  
Passing the state real estate exam is not an easy task, according to local realtors. However, recent statistics indicate that if people are interested in obtaining their real estate licenses in Tuscaloosa, there is only one place to take the real estate course - and that is Shelton State. Under the able guidance of **Britt Turner**, 95 percent of the students who took the college's real estate course this summer went on to pass the state real estate exam. Incidentally, the state passage rate average is only 63%!

## **SHELTON WELL REPRESENTED AT TALENT SEARCH '94.**

Greg Ponds and Shimri were finalists for the Male Vocalist category, and Shimri was a co-winner of the Instrumental category. Band members Wen Bradley and Preston Cates are also Shelton students.

## **NEW TUITION ASSISTANCE ANNOUNCED**

At the August meeting of the State Board of Education, a tuition waiver policy for dependents of full time employees of the Alabama College System was passed. This policy modifies and supplements the employees tuition waiver passed by the Board on May 23, 1991.

The Tuition Waiver program is open to any full-time employee of any public two-year college in the State of Alabama or of the Alabama Department of Postsecondary Education.

This program will not include temporary or part-time employees or persons serving as independent contractors. Dependents are defined as the spouse and unmarried, natural or adopted children, or stepchildren of any full time employee who reside in the employee's household. Employees must have been employed by their respective college for one full academic year or at least 12 months prior to the first scheduled day of class.

#### Eligibility

Eligibility terminates if the employee discontinues full-time employment for any reason other than an approved leave of absence. Dependents are ineligible when the employee is ineligible. Dependents of any employee who has 25 years or more service upon retirement are eligible to participate in the program for a five year period commencing with the date of the employee's retirement from the system.

#### Tuition cost

All eligible employees and their dependents will be allowed a waiver of one-third of the tuition normally charged after the first year of employment, a waiver of two-thirds tuition after the second year of employment, and a waiver

of full tuition after the third year of employment.

#### Limitations

There is no limitation as to the number of credit hours taken, other than regular academic limitations that apply at the college.

#### Conditions

To be eligible for tuition waiver, the employee or dependent must maintain at least a "C" in the courses in order to receive tuition assistance.

#### Auditing

The employee or dependent will be allowed to audit one course at no cost. All attendance requirements, class participation, and assignments, except the final examination, must be met. Failure to comply with these requirements will result in the employee or dependent becoming ineligible to audit further.

#### Repeating a Class

Tuition costs for courses repeated will be the responsibility of the employee or dependent.

#### Records and Transmittal

The employee or dependent must re-certify eligibility, as specified prior to registering for a new semester by providing verification of course completion to the academic or technical dean. Those not registering for the next

semester must, within 20 days after course completion, present official documentation to the academic or technical dean at the college.

#### Work Week

Participation in this program is in addition to the employee's full-time work week and should not be considered when computing the employees time for financial compensation. In certain cases the employees's work schedule may be adjusted to permit course attendance. Adjustments to an employee's weekly schedule must be recommended by the employee's supervisor and/or dean, and approved by the president.
